

## Financial Accounting Fundamentals

University of Virginia

### Background Information

**Educational Background** (required)

College degree

**Annual Income** (required)

4000

**Employment Status** (required)

Full time

**How much can you afford to pay?** (required)

0

per month

**Why are you applying for a scholarship?** (150 words minimum required)

I was born and live in Shenyang City, China. I got about 2000 CNY per month, transportation takes me 300, the most cheap meal is 15 and 3 meals together per month will be 1350. I also need to pay for the house, electric gas water... we need to pay for water in China... the small amount of income is not even enough for each month. What to do? You are right, beg money from parents. After some humiliation and complain I can get some. Without dignity. I live in a city has snowy and cold winter, extra money to keep warm too. It is dreadful even to write these situations down. Life is difficult right? But I need to move on. But I still keep studying every day, I want to change my life. I want to live with dignity. I want a job with higher income.

**How will taking this course help you achieve your career goals?** (150 words minimum required)

I have applied for CICPA exam and Financial Accounting, Managerial Accounting, Corporate Finance, Taxation and other related courses are made up the CPA exam. I try my best to find the courses online, the courses in Chinese are boring and tedious, some of them are even paid, but totally not worth the price. Finally I found Coursera and the business courses. They are easy to understand, relax and happy. The professor is no longer over-enthusiastic like in North Korea news or like a propaganda. English has been my first language to learn for long time, and I am prepared to use it to prepare the CPA exam. My major at collage is Financial Management and I want to have a closure of my four years. AICPA are better choice but I do

### Help Us Improve

We're always looking for opportunities to improve our scholarship program for learners like you and we'd love your feedback. This information will not affect your ability to receive a scholarship.

**Would you consider using a low-interest loan to pay for your courses?**

☒ Yes

☐ No

**If you answered no, please help us understand why.**
